

# Euro Inflation Linked Bond Fund

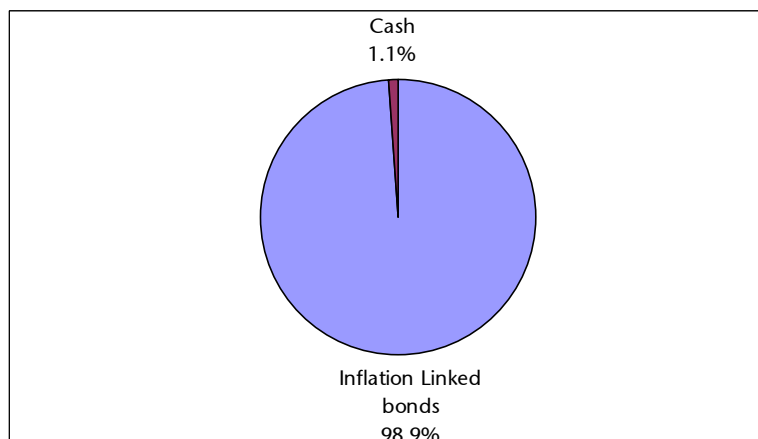

## September 2009

### Description

The fund aims to provide long term growth from a combination of income and capital growth by investing predominantly in the euro denominated sovereign-issued and corporate inflation-linked debt markets. The fund is actively managed by our investment team who may also invest a proportion of assets in other interest bearing securities (e.g. non-euro bonds and government bonds) and/or money market instruments to try to take advantage of opportunities they have identified.
